

You may notice that there is an empty space near the choir area in the Sanctuary of the Church. Occupying that space was the organ that was an important part of our Liturgical celebrations in our old Sanctuary and new Sanctuary since 1979. We are now in the process of preparing that vacant space for the new pipe organ. The new organ will in place at the end of 2009.

We are very happy to know that a new home has been found for our old organ our thanks to Lena Gokelman. The community of St Anthony Marie Claret has decided that with a little investment for repair the organ will be suitable for their Church. It is good to know that the organ has a new life after its life here at St. Mark the Evangelist.

A word of gratitude is appropriate to the people of this parish who donated financially to the purchase of this organ. Thank you to the many organists that accompanied the congregation in the many celebrations in both Sanctuaries.

We look forward to the completion and installation of our new organ in the Sanctuary in December of 2009.
